

Product Features Sheet for **PVP-IODINE Concentrate**

**What is it?** **PVP-IODINE Concentrate** is a top quality solution for udder hygiene. Reduced water content saves packaging and haulage, with no compromise on quality, performance or shelf life.

**How do you use it?** Apply **PVP-IODINE Concentrate** by spraying with a nozzle chosen for good coverage with minimal run-off, or by immersion.

**What does it do?** **PVP-IODINE Concentrate** disinfects with no adverse effects on skin. PVP is non-irritant, lubricating and has excellent emollient properties unlike conventional, tenside iodine which has to be formulated with harsh surfactants. The slow, steady release of the iodine ensures prolonged and efficient performance.

*Gel, barrier or thixotropic characteristics are unnecessary, using too much product and causing debris to stick to the teats.*

**PVP-IODINE Concentrate** is safe to the milk, operator, livestock and environment at recommended in-use dilutions.

**Do:** Dilute PVP-IODINE Concentrate precisely at one part in 9 parts of potable water.

**Don't:** Do NOT mix with other products or apply sequentially with other products. Use a recommended compatible pre-wash, if teats are heavily soiled. Do not return product to the can or contaminate the can.

**Pack sizes?** 20L (makes 200L ready-to-use).
