

Product Features Sheet for **UDDERSAN**

What is it? *UDDERSAN is a food safe, residue free peroxygen formulation for udder sanitizing before milking.*

How do you use it? *Apply UDDERSAN **diluted** to 5% (1 part in 20 parts water) by spraying or by immersing the teats to give good coverage with minimal run-off and wipe off with a low cost disposable paper wipe*

OR

pre- soak a suitable cloth or paper towel.

What does it do? *UDDERSAN effectively and rapidly removes dirt, debris and micro-organisms while conditioning the skin.*

At recommended in-use dilutions UDDERSAN is safe to milk, the operator, livestock, and environment

Do: *Accurately measure the required dose and the water for dilution. Use only potable water. Use the mixed solution within twenty four hours.*

Don't: *Do NOT mix with other products or apply sequentially with products containing CHLORINE or alcohol.*

Do not return product to the can or contaminate the can.

Pack sizes? *10L/ 25L/200L*
